

Safety goggles.

Quality Made in Germany.

Fast and flexible
delivery times.

Short transportation routes.

Production capacity:
1,500 pieces/day.

Protection.

This product is designed to protect the eyes from airborne particles in the environment and provides mechanical protection against flying particles. Even saliva droplets cannot enter the covered area.

By putting on these goggles, the wearer can also prevent inadvertent contact between the hands and eyes, offering further protection.

Cleaning.

For a long life and clear vision at all times, these safety goggles can easily be cleaned with a commercial cleaning agent or disinfectant and a soft cleaning cloth.

Safety.

Viewing pane:

optical class: 1

mechanical strength: F (45m/s)

Supporting body:

protection against liquids, drops and splashes: 3

mechanical strength: F (45m/s)

Comfort.

The viewing pane is equipped with a protective coating to prevent scratching. The wide, elasticated glasses strap can be flexibly adjusted in length using the tabs. Thanks to their light weight, these goggles are exceptionally comfortable to wear. The clever design ensures that there is no slipping on the nose.
