

Facial shield.

Quality Made in Europe.

High stock.

Fast and flexible delivery.

Generous and universal.

Thanks to its generous shape, this facial shield protects the eyes, nose and mouth from aerosols, liquid splashes, and dust. With its simple yet clever design, this shield can be used universally. It can be used for laboratory work, woodwork, garden work, when drilling, grinding, welding, cooking or doing sports outdoors, for example.

Material.

With its 0.5mm-thick shield made from high-quality polyethylene, this protective shield will impress you with its light weight and stability.

Comfort.

The part of the shield that rests against the face is made from soft foam, ensuring a comfortable feel when worn.

Size-adjustable.

Due to the elastic band and the clamp that allows you to adjust the tension, this shield can be adapted to the circumference of your head and offers a secure hold.

Cleaning.

The shield can be separated from its head bracket, making it easy to clean or replace.
