

Mouth and nose Shield.

Quality Made in Germany.

Production quantity:
7,000 pcs/day.

Fast & flexible
delivery times.

Short transport routes.

Large and universal.

With its large design, the Mouth & Nose Shield protects both the wearer and those with whom he or she is speaking against aerosols and liquids. With its simple, well thought out design, the shield is universal.

Comfort.

The shield's chin contact surface ensures a comfortable feeling when worn. The stretchy ear straps allow the shield to be individually adjusted to suit its wearer.

Material.

With a 0.5 mm-thick visor made from high-quality polyethylene, the shield impresses with its light weight and stability.

Cleaning.

The shield can be removed from its holder, which is positioned at the chin, and can thus be easily cleaned with a disinfectant or a damp cloth. Depending on requirements, the shield can also be replaced.
