

elasto is ISCC PLUS certified.

*Making a difference  
together!*

**elasto**   
PROMOTION FOR LIFE

**ISCC**

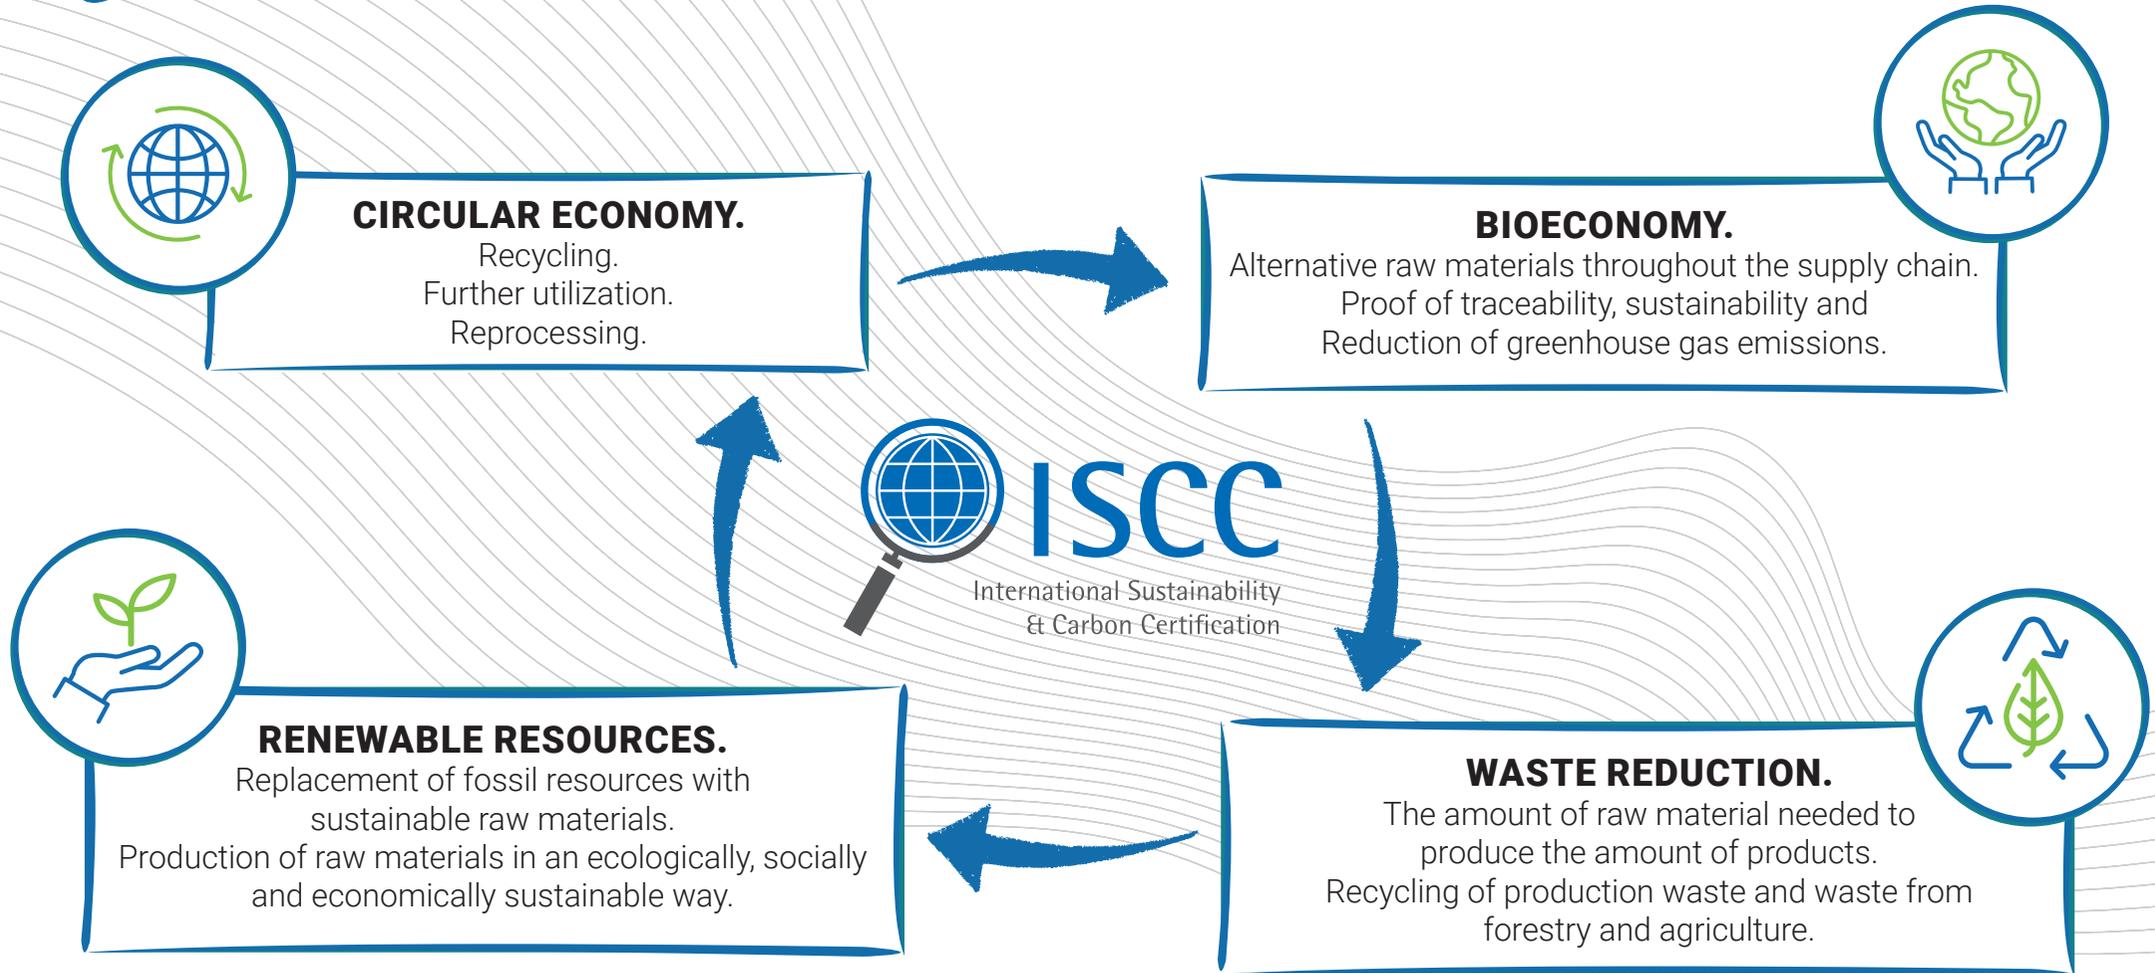

International Sustainability  
& Carbon Certification

**ISCC PLUS** is an independent global certification system on a voluntary basis across the entire supply chain.

It indicates the extraction of resource-saving raw materials and the ecologically valuable products made from them.

This is what ISCC PLUS stands for.

# Sustainable all around!

Our ISCC PLUS certified polypropylene.

**87%\***

**BIO-CIRCULAR MATERIAL.**

**Bio-circular material** is made from forestry and agricultural waste and the food industry. Raw materials here are, for example: waste cooking oil, straw, forestry waste, pine oil.

\* approx. 10% addition of conventional plastics required for production quality and approx. 3% of colour pigments added.
